ACCESS COMPLIANCE FOR EXISTING BUILDINGS

Construction Valuation Form

The provisions of Section 11B-202.4, Exception 8, apply to existing buildings or facilities used as public buildings, public accommodations, commercial buildings or public housing. When these buildings or facilities undergo alterations, structural repairs, or additions, an accessible path of travel must be provided to the specific area of construction.

- When the adjusted construction cost¹ of alterations, structural repairs, or additions to existing buildings and facilities within three years of the original alteration **does not exceed a valuation threshold of \$209,208.00**, the cost of compliance with Section 11B-202.4 exception 8 of the 2025 California Building Code, compliance shall be provided to the greatest extent possible without exceeding 20% of the adjusted construction cost of alterations, structural repairs or additions.

- When the adjusted construction cost¹ of alterations, structural repairs, or additions to existing buildings and facilities within three years of the original alteration **exceeds a valuation threshold of \$209,208.00**, the cost of compliance with Section 11B-202.4, Exception 8 of the 2025 California Building Code shall be a minimum of 20% of the adjusted construction cost.

In choosing which accessible elements to provide, priority should be given to those elements that will provide the greatest access in the following order:

1. An accessible entrance.
2. An accessible route to the area of alteration, structural repair, or addition (see definition of accessible route Section 202 & 11B-206.2.1 for more information on accessible routes and site arrival points).
3. At least one accessible restroom for each sex or unisex (single-user or family) serving the area of alteration, structural repair or addition.
4. Accessible telephones, if provided, serving the area of alteration, structural repair, or addition.
5. Accessible drinking fountains, if provided, serving the area of alteration, structural repair, or addition; and
6. When possible, additional accessible elements such as additional parking, storage, signs and alarms.

Please complete the attached worksheet and prepare a site and floor plan of the existing and proposed accessibility improvements along the accessible route to the area of alteration and submit it to the Building Division prior to permit issuance.

The total cost of alterations to the areas on that path of travel during the preceding three-year period shall be considered in determining whether the cost of making that path of travel accessible is disproportionate.

Additionally, barrier removal is an ongoing obligation required by the Americans with Disabilities Act (ADA). This application does not exempt the applicant from any obligations to remove barriers in a reasonable time frame.

*If an area has been altered without providing an accessible path of travel to that area, and subsequent alterations of that area or a different area on the same path of travel are undertaken within three years of the original alteration, the total cost of alterations to the areas on that path of travel during the preceding three-year period shall be considered in determining whether the cost of making that path of travel accessible is disproportionate.

¹ Adjusted cost of construction does not include the cost of alterations to path of travel elements required to be upgraded outside the area of alteration, structural repair, or addition.

EXAMPLE FORM

Project Address: 123 Hope Street		Application No. B1409-241	
Project Description/Location: Office tenant improvement (2,040 SF) at 5th floor Suite No. 502		Permit Valuation: \$180,000.00	
Type: <input checked="" type="checkbox"/> Alteration <input type="checkbox"/> Structural Repair <input type="checkbox"/> Addition		*Adjusted Cost of Proposed Construction: \$144,000.00	
PATH OF TRAVEL REQUIREMENTS FOR AREA OF ALTERATION, STRUCTURAL REPAIR, OR ADDITION			
Accessible Features	Does existing feature meet accessibility standards of Chapter 11B of the current CBC?	Will this feature be replaced or altered to meet Chapter 11B of the current CBC?	If so, how much will be spent to make this feature accessible?
1 Accessible entrance	NO	YES	\$ 2,400.00
2 Accessible route to the altered area	NO	PARTIAL	\$26,000.00
3 Accessible restroom for each sex serving the area	NO	YES	\$ 8,000.00
4 Accessible telephones	N/A	N/A	
5 Accessible drinking fountains	N/A		
6 Other (Any of the below)			
E. Accessible parking spaces	NO	YES	\$ 1,100.00
F. Signs	NO		
G. Alarms	N/A		
H. Other:			
Cost of All Features Provided (A)	Summary of costs of Accessible Features Nos. 1-6 provided above.		\$37,500.00
Total Cost on Same Path of Travel (B)	Cost of Proposed Construction and Cost of Preceding Alterations.		\$144,000.00
Percentage Upgrades Provided (A / B)	Cost of all Features Provided / Total Cost on Same Path of Travel.		26%
Description of Access Features Provided:			
New entrance landing, new accessible fixtures for the restrooms, properly mark and identify the accessible parking area, and 27 cubic yards of concrete (289 feet of sidewalk)			
Hardship Request: 345 lineal feet of exterior sidewalk that exceeds 2.08% cross slope which is 3.4% - 3.8%. Without this request approval the project will not be able to happen due to lack of finances. Please see attached implementation plan and my justification for approval.
